Depilatory Cosmetics

DEPILATORY COSMETICS

<p style="text-align: center;">PRE-DEPILATORY TREATMENT GEL 500ml</p> <p>New formula, excellent for application before depilation. The guaranteed soft depilation contributes to the prevention of dryness of the skin, smoothness of the air and reduction of irritation.</p> <p>ACTIVE COMPONENTS:</p> <ul style="list-style-type: none">- Chamomile extract- Bisabolol- Hamamelis water- Rosemary water- Essential oil of lavender- Menthol	
<p>USE:</p> <p>Apply directly to the depilation zone with a slight upward massage, leave for a minute until completely absorbed</p>	<p>CODE : QB3080</p>

<p style="text-align: center;">AFTER DEPILATORY EMULSION RETARDANT 500ml</p> <p>Excellent product to be applied after depilation. Its refined texture of the melon and Asiatic buttercup extracts with cinnamon essential oil, gives a quick sensation of freshness, smoothness, softness and quick hydration and velvety skin. Because of the incorporation of a new active component as well as the mixture of three vegetable extracts (saw palmetto, epilobium and pumpkin), hair growth will be delayed and new hair will debilitate from the roots.</p> <p>ACTIVE AGENTS:</p> <ul style="list-style-type: none">- Melon and fruit extract- Asiatic Buttercup extracts- Cinnamon essential oil- Vegetable extracts	
<p>USE :</p> <p>Apply on depilation zone with a slight upward massage until its total absorption.</p>	<p>CODE : QB3180011</p>

<p style="text-align: center;">ACID CREAM POST DEPILATORY TREATMENT 500ml</p> <p>Acid cream with olive oil and oat extract. Moisturising cream with astringent properties to give the finishing touch to the hair removal process. It smoothes the effects of the hair removal process leaving a fresh and comfort sensation. Suitable for any kind of skin including the most sensitive ones.</p> <p>ACTIVE COMPONENTS:</p> <ul style="list-style-type: none"> - Menthol: Alcohol obtained from different mint types. Gives a gentle fresh feeling, calms and disinfect. - Bee wax: Moisturising and softening. - Silicone: Softening effect. - Alantoine: Regenerating and healing properties. - Olive Oil: Moistening and softening. - Oat Extract: Moistening and hypoallergenic. 	
<p>USE :</p> <p>Apply on depilation zone with a slight upward massage until its total absorption.</p>	<p>CODE : QB3180031</p>

<p style="text-align: center;">ACEITE OIL AFTER DEPILATORY 500ml</p> <p>Used after depilation anywhere on the body. Excellent to cleanse any remaining wax, leaving skin soft and hydrated.</p> <p>ACTIVE COMPONENTS:</p> <ul style="list-style-type: none"> - Paraffinum liquidum: White medical oil. - Octyl cocoate: Derived coconut oil with soft effect. - Olive oil: Moistening and softening. - Rosemary oil: Antiseptic properties. 	
<p>USE :</p> <p>Apply on depilation zone with a slight upward massage until its total absorption.</p>	<p>CODE : QB3180081</p>

<p style="text-align: center;">MOUSSE RETARDANT VEGETAL (Retarder Hair Growth) 200ml</p> <p>Based on properties of melon and Asiatic buttercup extracts with cinnamon essential oil. Gives a sensation of freshness, smoothness, sweetness, quick hydration and velvety skin after depilation. Hair growth will be delayed and new hair will debilitate from the roots.</p> <p>Ideal for tired legs, hydration and a better skin after depilation. Protects skin - preventing possible itching and redness due to hair removal. Smoothes and moisturises.</p> <p>ACTIVE AGENTS:</p> <ul style="list-style-type: none"> - Melon fruit extract - Asiatic Buttercup extract - Cinnamon essential oil - Vegetable extract from the saw palmetto, epilobium and pumpkin 	
<p>USE :</p> <p>Apply through a light circular massage on the desired area.</p>	<p>CODE : QB3180091</p>

<p style="text-align: center;">RETARDANT EMULSION POST-DEPIL (Facial)</p> <p style="text-align: center;">- 12 ampoules x 2´5ml -</p> <p>Concentrated biologics that inhibit hair growth as they act directly on the hair's germinal areas.</p> <p>ACTIVE COMPONENTS:</p> <ul style="list-style-type: none"> - Derived from bromide (lauryl iosquininum bromide): A compound that retards hair growth. - Plant extracts: soothing and decongestant. - Propylene Glycol: moisturising. - Urea and Alantoin: regenerate the corneous layer and soften. 	
<p>USE :</p> <p>After hair removal, apply on the area in question massaging in circles until completely absorbed.</p>	<p>CODE : QB3130</p>

<h3>HAIR RETARDING AMPOULES (Body)</h3> <p>- 12 ampoules x 10ml -</p> <p>Concentrated biologics that inhibit hair growth as they act directly on the hair's germinal areas.</p> <p>ACTIVE COMPONENTS:</p> <ul style="list-style-type: none"> - Derived from bromide (lauryl iosquininum bromide): A compound that retards hair growth. - Plant extracts: soothing and decongestant. - Propylene Glycol: moisturising. - Urea and Alantoine: regenerate the corneous layer and soften. 	
<p>USE :</p> <p>After hair removal, apply on the area in question massaging in circles until completely absorbed.</p>	<p>CODE : QB3160</p>

<h3>HAIR PULLER SOLUTION (for in-grown hair)</h3> <p>- 10 bottles = 1 box -</p> <p>Best seller!</p> <p>It is a solution to prevent ingrown hair. It eliminates the hair under the skin. This product is suitable for everyday use, soothes irritated skin. Ideal against redness and irritations.</p> <p>Precautions: Do no ingest. Do not use after sunbathing or with dehydrated skin. Use 24 hours after depilation.</p> <p>DO NOT USE IN CASE A PERSON IS SENSITIVE TO SALICILIC ACID</p>	
<p>USE :</p> <p>Spray and massage gently on the area to treat.</p>	<p>CODE : QB3189921</p>

PALON STRIPS (HYGIENIC BANDS)

- Body -

200 precut strips of hygienic band, ideal for removing wax for any body part. Not being porous can remove the wax very effectively. Woven/non-woven. Main advantage is that they do not break.

CODE : QB3081

Wax Roll-On Cartridges

WAX ROLL-ON CARTRIDGES

<p style="text-align: center;">AZULEN ROLL-ON 110g</p> <p>All in one body wax with soothing active agents to all skin's types. Suitable for thin and medium thickness of hair, used for sensitive skin. Coming with the azulene (oil of chamomile flowers), has anti-inflammatory, anti-allergic effect. Has gel structure.</p> <p>ACTIVE AGENTS:</p> <ul style="list-style-type: none"> - Rosin Ester with glycerine - Rosin Ester with trietilenglycol, Antioxidants, Pigments - Azulene 	
<p>USE :</p> <p>Introduce roll-on in heating apparatus and turn on. After 20 minutes, check that wax has melted and move switch to keep temperature.
